

CERTIFIED PROFESSIONAL FORECASTER (CPF)

Demand Planning, Forecasting & Sales & Operations Certification Program

As we move into a more demand driven environment the pressure to forecast and plan accurately is no longer an option, but an absolute must. As a result, this has created an unmet demand for Demand Planners, Forecasters, and Sales & Operations Planning (S&OP) professionals in the field.

This 2 day workshop, endorsed by the Institute of Business Forecasting and Planning, provides attendees with the perfect preparation to become Certified Professional Forecasters through the Institute of Business Forecasting and Planning.

Currently this workshop is being held online using the platform Zoom.

INTRODUCTION

- How do you pre-qualify yourself and prove to management and/ or prospective employers that you have what it takes to do the job?
- How can you improve your career opportunities and maintain job security?
- And for employers, how can you build confidence that you have the right team to help you increase market-share and profitability, the fruits of improving forecast accuracy?

This important certification from IBF answers all these questions. This programme is based on its verified body of knowledge which it has been maintaining for over 30 years. This knowledge is built on best practices that are flexible and grow as economies evolve and change.

BENEFITS OF CERTIFICATION

For Employees	For Employers
Accelerate your career growth, leadership opportunities, marketability and job security	Save time and resources as IBF certified individuals are pre-qualified, allowing you to quickly identify the right person for a forecasting/demand planning job
Validate your professional experience, knowledge and skill-sets in the field	Gain assurance that an IBF Certified individual has the background to help improve forecasting performance and hit the ground running
Build confidence knowing that you're prepared for today's rapidly changing marketplace	Increase the value of your forecasting and demand planning staff, department and company
Complement your supply chain education & certifications	Save time and resources in training. CPF or ACPF professionals already have a verified body of knowledge

WHAT'S IN IT FOR YOUR ORGANISATION?

- Improve your company's planning & forecasting skills and knowledge
- Improve business decisions company wide
- Increase business performance, market-share, and bottom-line success
- Build your forecasting & planning team with confidence as employees who hold IBF certification possess verified body of knowledge
- Build credibility for the forecasting function internally
- Increase your own and your company's recognition in the field

WHO WOULD BENEFIT FROM ATTENDING THIS WORKSHOP?

Those in the position of planner, demand planner, MRP Planner, Operations Planning Manager, Manufacturing Manager, Supply Chain Manager or anyone from manufacturing and distribution companies who work in an environment where the quality of forecasting and demand planning is important. This certification is targeted at anyone who would like to gain specific knowledge pertaining to forecasting and demand planning and gain an internationally recognised qualification.

CERTIFICATION STATUS

A potential candidate must have at least a Bachelor's degree and one year of professional experience in Forecasting and Planning

If the individual does not have a Bachelor's degree then two years of professional experience in Forecasting can fulfil the eligibility requirement.

***Students or those new to the Profession**

For students or those new to practicing forecasting and planning you can earn a CPF-C (Certified Professional Forecasting | Candidate) by passing the exams. Then, once you complete 1 year of professional experience IBF will upgrade you to a full CPF status.

ABOUT THE INSTITUTE OF BUSINESS FORECASTING

IBF is a membership organization recognized worldwide as the premier full-service provider of demand planning, forecasting, business analytics, S&OP (Sales & Operations Planning)/ IBP (Integrated Business Planning) education, benchmarking research, corporate training, e-Learning, professional certification, world-class conferences, and advisory services. Since 1981, the IBF has been helping businesses improve their forecasting and planning performance to enhance growth, optimize supply chains, and improve their bottom line. It has been said that no other organization on the globe has as much depth in its educational content for S&OP, Demand Planning & Forecasting as IBF. The IBF is known for two levels of certification: Certified Professional Forecaster (CPF®) and Advanced Certified Professional Forecaster (ACPF®). SAPICS has represented The Institute of Business Forecasting & Planning in South Africa for more than 15 years.

For more information you can visit their website at www.ibf.org and for more information about SAPICS please visit www.sapics.org.za
